Subject: input for SO committee meeing today

Sorry I didn't find out about the meeting until yesterday. Hope you can forward it for me to the committee meeting today for the Advisory Committee concerning Sex Offender Registration. Thank you Pat Hines.

... ..
Having just found out about the meeting yesterday and being out of state and cannot attend on such short notice I would like to make a few comments and ask a few questions. I had to spend far too much time talking to supposedly informative staff who knew nothing of such a today. I felt like an abused yoyo for the inexcuseable time I spent for information. It is not the first time and I do not feel I am the only one who has been subjected to having inquiries - like for today's meetin - seemingly made non transparent to me.

1. Why is Notification not included along with "Registration" in this title as has been previously done?
2. I am disappointed I will miss Alisa Klein's presentation . I have gained so much knowledge from her emails the past two years. Her book "Reasonable Approach" for Sex offender management has so many suggestions to better manage treatment and counseling for this criminal class. May those Nevada Criminal Justice Advocates present get a copy of her book to share with others of us unable to attend.
3. Here is a reminder to advocates present. No action on the Public Comment of the day can be taken BUT the comments presented can be.
4. It is interesting to note that 3 individuals (Meeting of May 15th) ere present via Phone Conference. There would be more people attending if is kind of opportunity was present. Who do we contact to arrange this?
5. more should be projected and documented as it used in order for interested citizens to easily access something in our government they might find interesting.

Respectfully Submitted'
