

## RANKING OF THE 100 MOST POPULOUS U.S. CITIES 12/7/2007 – 12/31/2016

### OVERVIEW OF THE DATA

The following information is based on incoming communication to the National Human Trafficking Hotline via phone, email, and online tip report from December 7, 2007 – December 31, 2016 about human trafficking cases and issues related to human trafficking in the United States and U.S. territories. The statistics below are representative of calls and cases reported to the National Hotline and should not be taken as a comprehensive report on the scale or scope of human trafficking within each city.

### RANKING BY NUMBER OF CALLS

The following statistics are based solely on substantive calls about human trafficking and issues related to human trafficking made to the National Human Trafficking Hotline between December 7, 2007 and December 31, 2016. Substantive calls do not include hang-ups, missed calls, wrong numbers, and calls in which the caller's reason for calling is unknown. Any communication with the hotline regarding topics unrelated to human trafficking is not included in this report.

### RANKING BY NUMBER OF CASES

The following statistics include cases created by the National Human Trafficking Hotline. A case is a unique report, situation, or request for resources that originated as a signal to the National Human Trafficking Hotline. Each case has at least one signal (call, online tip report, or email) associated with it. Cases may have multiple signals and/or multiple signalers based on the details of the case. Each case included in this report was evaluated for evidence of potential human trafficking and was determined to have either high or moderate indicators of human trafficking.

**Important Notes:**

<sup>6</sup>Each situation of trafficking reported to the National Human Trafficking Hotline was assessed for indicators of human trafficking and was found to have at least moderate- or high-level indicators. Assessments are made based on the information reported to the hotline. The National Hotline is not able to verify the accuracy of reported information.

<sup>7</sup>These statistics are accurate as of June 6, 2017. They may be subject to change as new information emerges.

<sup>8</sup>The rankings above are based only on a comparison of the top 100 most populous U.S. Cities. Numbers of calls and cases from less populous cities were not taken into consideration. The 100 most populous U.S. cities were determined using the July 1, 2016 population estimates from the U.S. Census Bureau. These estimates were obtained from <https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?src=bkmk> on May 31, 2017.
