2. PUBLIC COMMENT

None

3. FOR DISCUSSION AND POSSIBLE ACTION

The minutes were read from the January meeting and approved as amended.

4. FOR DISCUSSION

-Jamie Trevino, Nevada Office of the Attorney General, discussed getting in contact with RCCD and found that per statute, she is legally allowed to have access to anything regarding recordings (data) with no MOU needed. She was able to obtain the NOC list with 15000-17000 codes and opened the question to the committee of what is needed for their organization in particular, adding that she believes we can have county information as well.

5. FOR DISCUSSION

-Jamie Trevino, Nevada Office of the Attorney General, updates on NV S.A.V.E is that we are on track to closing out implementation online being that the system issue pushed things back but, is still expecting to wrap things up by next month. She also discussed how Washoe County is expected to be one of our big switch overs to JMS vendors. CCDC and LVDC are looking for JMS vendors. This affects how NV S.A.V.E receives data on a positive scale because with new jail staff still learning the system, more errors occur, which brings up continued tasks for Jamie Trevino. Although she has gained a new assistant, she has not been fully trained just yet, so Jamie is the only one with system access currently. She mentioned how she is going to put in a request to hire another member of the team who solely focuses on NV S.A.V.E tasks.

Aaron Ford highlighted individuals not coming up for pardon, but Jamie Trevino explained that NV S.A.V.E is an open system (meaning anyone can register for anyone) so it would be both difficult and expensive to transition to a close system (meaning vetting specific individuals). In fact, it could estimate anywhere between 500k-750k to make updates to a close system and pardons board.

6. FOR DISCUSSION AND POSSIBLE ACTION

-Jamie Trevino, Nevada Office of the Attorney General, will facilitate a conversation and possible vote around the Committee's responsibility to review and evaluate existing programs provided to peace officers for training related to domestic violence and sexual assault, and make recommendations to the Peace Officers' Standards and Training Commission regarding such training. Attachment 2

*****This discussion will be moved to the meeting on 7/14

7. FOR DISCUSSION AND POSSIBLE ACTION

-Jamie Trevino, Nevada Office of the Attorney General, pulled trafficking DCFS runs. The 2025 laws have been updated and brought to legislation but need approval and opinions. The committee members had the following comments:

-Judge Patricia Lynch stated a modification needs to be made on page 19 where it quoted referring “district attorneys” to include ALL attorneys. She also says when there is mention of “primary aggressor”, it should be modified to “dominate aggressor” because primary does not do as good analysis versus dominate means power and control. On page 15, Judge Lynch quoted that survivors’ photos should be taken within 2-3 days for bruising purposes and to make that language clear especially on people of color. Kathleen Thimsen added that when maintaining evidence, there should be digital and raw photos. Also, that there is validity behind bail being looked at as predictive and data should be used to predict how many law enforcements come out to the scene of the call.

-Elynne commented that the list of crimes for DV should include value of items as it often gets ignored by law enforcement. She also mentioned that stalking should be expanded more. Judge Lynch agreed and stated that stalking should be apart of the evaluation process although money, time, and follow through is a challenge for training law enforcement.

8. NEXT MEETING

Meeting adjourned at 4:24pm

Next meeting will be held on 7/14 at 3pm

9. PUBLIC COMMENT

Haleigh stated an officer threatened with a warrant within minutes of coming to the scene and ignored her physical wounds which made her uncomfortable and retreat from speaking up. She wants the committee to focus on what we do when the officers get it wrong.
