

## Summary

Unlike traditional victim notification systems, SylogistGov VSS goes beyond notifications, offering a comprehensive suite of tools and features tailored specifically to meet the needs of victim assistance programs and criminal justice organizations. SylogistGov VSS supports victim engagement strategies, case management, victim compensation, offender mediation, resource management, event management, grants management, and more through its modular approach.

**SylogistGov VSS is the next-generation solution designed to transform victim notification and support services for criminal justice organizations.**

# Notification Advantage

## Personalized Experience

Empowering victims with greater control over notification decisions.

## Categorized Notification Scheme

Providing administrators with increased flexibility.

## Full Justice Lifecycle Offender Tracking

Enhancing victim services through comprehensive offender tracking.

## Direct Data Exchange

Reducing latency between event occurrence and notification.

## Portals

Offering comprehensive platforms for both victims and justice officials.

## Reduced Reliance on Federal Funding

By lowering implementation, support, and maintenance costs.

# Extensibility

## Case Management Module

Tracking individual victim service needs with easy linkage to your service directory, and streamlining State and Federal VOCA Reporting.

## Victim Compensation Module

Supporting victim compensation claims intake, eligibility determination, approval, and payment. Including Compensation and Sexual Assault Claim tracking, with optional Sexual Assault Kit Tracking Capability.

## A Restorative Justice

Victim Offender Dialog and Apology Bank tools let victims who desire it seek out the communication and closure they need.

## Grants Management

Victim Services and Compensation Grants Management Tools coming soon.
