The Nevada Office of the Attorney General strives for full data transparency so it is accessible to everyone. We have made great strides to provide more information regarding all things related to domestic violence, sexual assault, and human trafficking, and will be including stalking stats in the future as well (as well as making this report more robust as we gain access to more data). If you are interested in learning more or have suggestions on what you would like to see added, please feel free to reach out to Ombudsman Jamie Trevino at jtrevino@ag.nv.gov or call the Carson office at (775) 684-1100.

All data collected was from the Central Repository for Nevada Records of Criminal History. However, to include even more data transparency, we will be including data from other sources in the future. We understand this data is not very user friendly so we are also working on adjusting from only excel style layouts into graphs and charts in the coming reports and appreciate your patience as we move through the coming years.

The below data relates to both Trafficking and Prostitution. We feel it is important to notate them both, and separately, because while there is overlap between the two, prostitution is not always human trafficking.
